ACHIEVEMENTS

Developed responsive user interfaces for various websites and applications using HTML, CSS, and JavaScript, resulting in increased user engagement and improved user experience.

Collaborated with cross-functional teams including designers, product managers, and back-end developers to ensure seamless integration of front-end functionality with back-end systems.

Developed and tested software applications in a team environment, contributing to the successful launch of a new product.

Participated in code reviews and provided feedback to improve the quality and maintainability of the software codebase.

Collaborated with senior developers to design and implement new features, improving the functionality and user experience of the software.

Resolved technical issues and optimized code to increase system performance and reduce downtime.
